# EXPERIENCE FRESH

Joyful Cooking | Healthy Cooking | Social Dining

Panasonic is all about celebrating the joy of fresh food and creating a social food experience for you and your loved ones. When you have Panasonic, you can cook new recipes everyday in an enjoyable manner too. Panasonic helps you appreciate the quality of the food while staying healthy. Now enjoy making and sharing food with your family and friends.

Our actions are determined by our business philosophy expressed eloquently by our founder, **KONOSUKE MATSUSHITA**. He said, “We recognize our responsibilities as Industrialists and we devote ourselves to the progress and development of society and the well-being of people through our business activities, thereby enhancing the quality of life throughout the world”.

Based on this belief, we create world-class products & process so that the customers have a Fresh Experience. A fresh outlook helps us stay in line with changing times. A fresh approach helps us stay ahead of the competition.

Designed aesthetically to accentuate the beauty of the customer’s modern kitchen, the brand is a market leader and best of its kind in its category. We believe in customizing our products for each market segment to fulfil key customer needs, thereby assuring:

Safety

Convenience

Quality

In India, we have been manufacturing products since 1989 in a state-of-the-art manufacturing facility spread across a 25-acre property at Sholavaram near Chennai. We are the only manufacturers in India with a facility to produce 1 million Cookers, 3 lakh Mixer Grinders, 1 lakh Wet Grinders every year and have won many awards for its performances.

Nearly 32% of the products manufactured in this facility are exported to global markets and 68% caters to the dynamic Indian market. Panasonic exports products to 43 Countries like Japan, USA, Canada, Saudi, Kazakhstan, Hong Kong, Philippines, Singapore, Dubai, Oman, Riyadh, Panama, Peru, Sri Lanka, Nepal, Maldives, Nigeria, Egypt etc.

In India, we offer a wide range of Kitchen Appliances to suit all kind of needs. We are pioneers in Automatic Rice Cookers. With its “Double Safety Locking System”, our Super Mixer Grinders are one of a kind in its category. Our Ultimate Wet Grinders have set a new benchmark in grinding efficiency with its 3D Alpha Flow. Understanding the lifestyle and needs of customers, Panasonic also offers the widest range of Small Kitchen Appliances like Sandwich Maker, Hand Blenders, Bowl Mixers, Meat Grinder, Food Processor, 32L Oven Toaster Grill, etc.

Every product from Panasonic offers a wide range in terms of sizes and accessories. They come with a promising warranty and efficient after-sales service. All Panasonic products are designed to offer users, remarkable savings in time, effort and money. They are futuristic and admired in the market place.

# AUTOMATIC COOKERS

*The automatic first choice*

Panasonic is the pioneer who introduced Automatic Cookers in India. It is also the only brand to manufacture Automatic Cookers in India, for India.

With more than one crore happy customers in India, the brand offers the widest range of cookers by size, by colour, by features, and by accessories. The cooker comes with many amazing advantages that makes cooking convenient and pleasurable. Its multi cooking capabilities allow the user to have more spare time and also helps save precious LPG fuel. Its amazing 5-year warranty on the heater is an industry first.

**21 AMAZING  
ADVANTAGES**

# PRODUCT HIGHLIGHTS

## EXTREMELY DURABLE POLYCARBONATE STEAMING BASKET

The steaming basket is manufactured with Food Grade Polycarbonate material approved by FDA. Helps to Cook and Steam dishes at the same time. Can be stacked on top of the Cooking Pan.

1

## 2-DISH SEPARATOR PAN

This is a unique accessory which helps to cook 2 Dishes at the same time. It can be stacked on top of Cooking Pan.

2

## COOKING PLATE

The Cooking Plate ensures starch filtration and prevents sticking of cooked food.

3

## HIGH QUALITY ANODIZED PAN

The Aluminium Pan undergoes a 15 stage Anodizing Process to ensure the long life of the Pan.

4

## Anchor Coat NON STICK PAN

Panasonic's pre-coated Non-Stick Pan has a very strong adhesion that conforms to stringent Japanese Standards. This ensures longer life of non-stick Pan.

## Panasonic

### Coating

Aluminium

Hard to peel off. Very strong adhesion. Ensures longer life.

## OTHERS

### Coating

Aluminium

Done after pressing. So peels off easily. Shorter life of Pan.

## MICRO SWITCH

## MICRO SWITCH

### FOR PRECISE / ACCURATE CUT-OFF;

- When the switch is in COOK mode, the lever releases the micro switch actuator and the current passes through the Micro switch to the Cast heater.
- When cooking is over, Lever activates the micro switch actuator for switching to Automatic shut-off mode.

## Thermal Fuse

### THERMAL FUSE & DOUBLE THERMAL FUSE;

The built-in Thermal Fuse which touches the body acts as a safety device; it opens the circuit, when:

- Body temperature exceeds 139°C or 142°C.
- Current exceeds 10 Amps at the time of short circuit.

## MICOM COOKER

### SR-DF181

- If there is a power cut, and power returns within 40 minutes, cooking will resume automatically from where it stopped
- 6 Frequently Cooked Menus with only 4 Buttons
- Easy to carry, compact and simple
- Easy to use control panel

Fuzzy-logic rice cookers have computer chips that direct their ability to make proper adjustments to cooking time and temperature. Fuzzy-logic in rice cookers helps to ensure properly cooked rice because it gives the appliances the ability to make judgment calls similar to those a person might make.

The Rice Cooker has 6 Menus at one touch. These may include different keep-warm and quick-cook cycles for the optimum cooking of rice varieties like sushi rice, porridge rice, mixed rice, white rice, brown rice etc.

Our models also offer texture settings allowing the customer to choose hard, soft, sticky or wet rice.

Screw-Squeezed Juice

As the ingredients move toward the bottom of the screw, they hold less juice so they become drier and harder. This is why the bottom of the screw is made of stainless steel, so it can squeeze even the last bit of juice.

Handles Wide Variety of Ingredients

Ingredients that are not well suited to high-speed juicing can be easily juiced by the millstone-like action of the slow juicer. This includes fruits with little moisture and a lot of pulp, vegetables with a large amount of dietary fiber, and things like beans that tend to fly out of a centrifugal juicer.

### Easy Steps to “Chill Out”

1

Freeze it.

2

Squash it.

3

Enjoy it!
